TEACHING & LEARNING USING VIRTUAL PATIENTS

7 Virtual patients: From pragmatic implementation to educational research and back / Martin R. Fischer
8 The Realities of the Virtual Patient / Rachel Ellaway
9 A perioperative medicine virtual patient / Lester Critchley, Joseph Leung, Shekhar Kumta, Alex Yung
10 Anaesthesia Formative Assessment Case Studies / Lester Critchley
11 The role of a Learning technologist when implementing virtual patients in a health science curriculum / Ronny Sejersen, Nabil Zary
12 Task centered case simulations / Ulrich Woermann
13 Interprofessional cooperation for the cardiological patient benefits - planned course using a virtual patient's setting / Wojciech Szot, Emilia Kolarzyk

VIRTUAL PATIENT IMPLEMENTATION & CURRICULUM DESIGN

17 Integration of Virtual Patients into Existing Curricula of BH Pediatric Departments. Results of Two Evaluation Studies / Dejan Bokonjic, Bozo Petrov, Srdjan Masic, Sören Huwendiek, Srdjan Lozo
22 Teachers' expectations and concerns about introducing Virtual Patients in a clinical course / Samuel Edelbring, Nabil Zary
23 Virtual Patients as an Innovative Learning Activity in Distance Nursing Education / Carina Georg, Nabil Zary
24 Virtual Patient Players and Authoring tools - different players, different characteristics / Anna Hammarsten, Samuel Edelbring, Uno GH Fors, Nabil Zary
25 Different Learning and Assessment Scenarios Using the CAMPUS Virtual Patient System / Jörn Heid, Benjamin Hanebeck, Frank Hess, Simone Huber, Martin Haag, Sören Huwendiek
26 Implementation of Virtual Patients in a Dental School - A Proposed Model to Move beyond the Early Adopters / Gunilla Johnson, Nabil Zary
27 Integration of Theoretical Knowledge and Clinical Practice Using Virtual Patients / Daphne Vassiliou, Katarina Arnrup, Asa Derof, Samuel Edelbring, Marie Evans, Eli Westerlund, Jonas Spaak, Peter Henriksson, Stephanie Mindus, Magnus Sköld, Christer Sylvén, Ronny Sejersen, Uno GH Fors, Nabil Zary, Eva Sjöblom, Olle Broström

VIRTUAL PATIENT EVALUATION

29 Needs analysis for virtual patients: a report from the eVIP project / David A. Davies, Clara Balasubramaniam, Sören Huwendiek, Bas de Leng
35 Evaluation of curricular integration of virtual patients: Development of a student questionnaire and a reviewer checklist within the electronic virtual patient (eVIP) project / Sören Huwendiek, Helen Rani Haider, Burkhard Tönshoff, Bas de Leng
Evaluation instruments to support educators in making deliberate choices when they use virtual patients to teach clinical reasoning / Bas de Leng, Jeroen Donkers, Cecilia Brasch, Sören Huwendiek, Andrzej A. Kononowicz

Evaluation of a dental simulator / Marjoke Vervoorn, Dirk Bakker

DEVELOPMENT OF VIRTUAL PATIENT SYSTEMS

Application in VP systems individualization of distance learning process using student’s psychological profiles obtained by means of artificial intelligence methods / Ryszard Tadeusiewicz

Implementation of the MedBiquitous Standard into the learning system CASUS / Inga Hege, Andrzej A. Kononowicz, Michael Pfähler, Martin Adler, Martin R. Fischer

Maryland Virtual Patient: A Knowledge-Based, Language-Enabled Simulation and Training System / Marjorie McShane, Sergei Nirenburg, Bruce Jarrell, Stephen Beale, George Fantry

Open Virtual Patient Authoring System from McGill University / David Fleiszer, Nancy Posel, Sean Steacy, Jason Murray, Ben Moss

Demonstration of the CAMPUS Virtual Patient System / Jörn Heid, Benjamin Hanebeck, Frank Hess, Simone Huber, Martin Haag, Sören Huwendiek

BIT Pathways - A Flexible Graphical Editor for E-learning Purposes / Andrzej A. Kononowicz

vpSim - A Standards-Based Virtual Patient Authoring System / James McGee

Enabling Interoperability, Accessibility and Reusability of Virtual Patients - Findings from the eViP project / Nabil Zary, Inga Hege, Jörn Heid, Andrzej A. Kononowicz, Luke Woodham, Jeroen Donkers

AUTHORING OF VIRTUAL PATIENTS

Repurposing virtual patients for clinical reasoning: Development of a guideline and assessment of time and effort / Benjamin Hanebeck, Burkhard Tönshoff, Sören Huwendiek

Enriching Virtual Patients with Interactive Images / Simone Huber, Frank Hess, Jeroen Donkers, Jörn Heid, Bas De Leng, Sören Huwendiek, Martin Haag

Repurposing Virtual Patients for the preclinical years - A Pilot study / Stephan Oberle, Simone Huber, Burkhard Tönshoff, Ralph Nawrotzki, Sören Huwendiek

Effects of interface modality on a virtual patient learning experience / Olivier Courtille, Klas Karlgren

Repurposing virtual patients within the electronic virtual patient (eViP) project / Claudia Frey, Inga Hege, Patricia Hinske, Martin R. Fischer

Authoring Virtual Patients for Medicine and Nursing Curricula - Similarities and Differences / Ingela Lennström, Carina Georg, Nabil Zary

The Impact of Repurposing to Different Educational Levels on the Attitudes of Medical Students towards Virtual Patients / Zofia Mazurek, Andrzej A. Kononowicz

Authoring and implementation of virtual patients in nursing - the new challenge at the Jagiellonian University Medical College / Aleksandra J. Stachoń, Elżbieta Walewska, Lucyna Ścisło, Dorota Matuszyk, Matgorzata Dziedzic, Andrzej A. Kononowicz
ASSESSMENT USING VIRTUAL PATIENTS
88 Students Language Proficiency and Cross-Cultural Use of Virtual Patients / Valentin Muntean, Uno GH Fors, Nabil Zary, Tudor Calinici
89 Computerized virtual patient program supplementing medical education. A preliminary experience in Kaohsiung Medical University / Wen-Chan Tsai, Keh-Min Liu, Chung-Sheng Lai

VP INITIATIVES & VP SHARING
91 Repurposing Existing Virtual Patients; an Anglo-German Case Study / Chara Balasubramaniam, Terry Poulton and Sören Huwendiek
99 MedEdPORTAL: Peer Reviewing, Publishing and Disseminating Virtual Patients / Robby Reynolds, Gabrielle Campbell
100 Challenges and Opportunities in Sharing Virtual Patients / Angela Miller, Gabrielle Campbell
101 Net-based Training for Work related Medicine (NetWoRM) / Laura Wengenroth, Maria Julia Calvo, Alain Cantineau, Denise Carvalho, Inga Hege, Veronica Herrera, Monique Isler, Stefanie Kolb, Tiina Lehtonen, Begona Martinez-Jarreter, Eduard Monso, Elena Ana Pauncu, Paul Smits, Arun Dev Vellore, Katja Radon

E-LEARNING
103 E-learning versus T-learning / Jan Madey, Leszek Rudak
109 E-learning and Blackboard platform at ACC CYFRONETAGH / Kazimierz Wiatr, Marek Kwasniewski, Maria Wielgus
111 E-learning in Students Education in Medical University of Białystok, Poland / Wiesław Półjanowicz, Robert Latosiewicz, Andrzej Niewiński, Robert Milewski
117 Chemical pathways - application to the classification of the molecular point groups / Elżbieta Broniatowska
121 Chemical pathways - visualisation of classical analytical procedures in chemistry by the use of flow charts / Andrzej A. Kononowicz, Irena Roterman
127 Statistical pathways - a method of visualization statistical rules / Kinga Salapa, Andrzej Stanisz
133 "European Games Academy (EGA) in Cracow" / Paweł Węgrzyn
135 Clinical Placements in Pharmacy: Development of an on-line "virtual" learning module to orientate students to clinical practice / Beata Bajorek, Marianna Koulias, Marina Lobastov, Jim Woulfe, Greg Ryan

FRINGE
137 Male portrait head / Dorota Gorzelany, Jerzy Walocha, Anna Wojas-Pelc, Władysław Lejman, Ryszard Gryglewski, Wiesław Pyrczak, Irena Roterman
143 Leonardo da Vinci: "The Lady with an Ermine" - Interpretation of the portrait / Krystyna Moczulska
147 The XV century patients (as presented on Wit Stwosz altar) diagnozed / Irena Roterman
153 Egyptian mummies - perfect virtual patients / Andrzej Urbanik, Robert Chrzan, Wadim Wojciechowski, Piotr Czubak, Hanna Szymańska, Krzysztof Barbaj
OPENING PAPER
5 Why and how should a virtual patient be constructed? / Paweł Spólnik

BIOINFORMATICS
9 VoGE -Java application for presentation of Never Born Proteins gene structure elements / Monika Piwowar, Ewa Matczyńska, Filip Pomanański, Adrian Kośmider, Damian Kość, Michał Swatowski, Piotr Więcek, Tomasz Szepieniec
15 Unfolding simulation to verify the concept of limited conformational sub-space for early-stage intermediate / Piotr Kiełkowicz, Irena Roterman

DIGITAL IMAGE ANALYSIS
25 Computational Analysis of Prostate Perfusion Images - a Preliminary Report / Jacek Smiejański, Ryszard Tadeusiewicz

E-LEARNING
31 Usage of naive bayes classifier in decision module of e-learning decision support system / Marcin Chabior, Anna Noga, Magdalena Tkacz
35 E-learning with use of virtual patient in pharmacy education / Krzysztof Nesterowicz, Sebastian Polak

EXPERT SYSTEM
39 Interactive knowledge base for expert system / Anna Noga, Marcin Chabior, Grzegorz Sapota

TELEMATICS
45 Speech perception - toward understanding of consciousness / Jan Trąbka, Piotr Walecki, Wojciech Lasoń, Wiesław Pyrczak, Krzysztof Sarapata
51 Neuroinformatic modelling of oculomotor system / Piotr Walecki

TELEMEDICINE
59 HEARTFAID's eCRF: Lessons Learnt from Using a Two-Level Data Acquisition and Storage System for Knowledge Discovery Tasks within an Electronic Platform for Managing Heart Failure Patients / Andrzej A. Kononowicz, Katarzyna Styczkiewicz, Bogumila Bacior, Matko Bošnjak, Rajko Horvat, Marin Prcela, Dragan Gamberger, Angela Sciacqua, Maria Consuelo Valentini, Kalina Kawecka-Jaszcz, Gianfranco Parati, Domenico Conforti
