JOURNAL OF CIVIL ENGINEERING AND MANAGEMENT
2009

SPIS TREŚCI
	nr 1

5 Editorial / H.A. Mang, G. Kaklauskas
7 Experimental analysis of steel dissipative bracing systems for seismic upgrading / F. M. Mazzolani, G. Della Corte, M. D’Aniello
35 Hilltop bucking as the A and Ω in sensitivity analysis of the initial postbuckling behavior of elastic structures / H. A. Mang, X. Jia, G. Hoefinger
59 Limit and shakedown analysis of RC rod cross-sections / P. Aliawdin, S. Kasabutski
67 Monoharmonic approach to investigation of the vibrations and self-heating of thin-wall inelastic members / Y. Zhuk, I. Senchenkov
77 Dynamic analysis of structures with multiple tuned mass dampers / R. Lewandowski, J. Grzymisławska
87 Investigation of static and dynamic behavior of anisotropic inhomogeneous shallow shells by spline approximation method / A. Grigorenko, S. Yaremchenko
95 Assessment of structure subjected to accidental actions using crisp and uncertain fragility functions / E. R. Vaidogas, V. Joucevičius

REGULAR PAPER
105 Quantitative evaluation of unrelated diversification of enterprise activities / R. Ginevičius

AWARD
113 On contemporary computational mechanics / H. Mang
Fire safety aspects of refuge floors in supertall buildings with computational fluid dynamics / Ch.L. Chow, W.K. Chow
A general concept of fire hybrid modelling in compartments / J. Gałaj
Simple fire model for comparative studies of critical conditions during combustion of chosen polymer materials / M. Konecki, M. Półka
The construction common product coding system / N.-H. Pan
Factors affecting the performance of construction projects in the Gaza Strip / A. Enshassi, S. Mohamed, S. Abushaban
Organizational effectiveness of Ugandan building firms as viewed by craftsmen / H. Alinaitwe, J.A. Mwakali, B. Hansson
The limit state design of spun concrete columns using load combinations recommended by EN 1990 and ASCE/SEI 7-05.
Material and geometrical characteristics of structural steels based on statistical analysis of metallurgical products / Z. Kala, J. Melcher, L. Puklický
The effect of vertical air gaps to thermal transmittance of horizontal thermal insulating layer / J. Šadauskienė, A. Buska, A. Burlingis, R. Blūdžius, A. Gailius
The effect of concrete composition and aggregates properties on performance of concrete / R. Mačiulaitis, M. Vaičienė, R. Žurauskienė
