Principles for modelling technological processes in transport terminal / Adolfas Baublys
The slippage of the driving wheels of a tractor in a cultivated soil and stubble / Algirdas Janulevičius, Kazimieras Giedra
Developing co-operative transport system and route planning / Gábor Szűcs
Theoretical estimation of the environmental impact of biofuel mixtures / Ádám Török
Developing the composed probability model to predict household trip production (a case study of Isfahan city) / Ali Mansour Khaki, Shahryar Afandizadeh, Reza Moayedfar
Allotment booking in intermodal transport / Ilona Jaržemskiene, Vytautos Jaržemskis
The impact of road parameters and the surrounding area on traffic accidents / Tomas Šliupas
Possibilities of using liquefied oil gas in transport / Algirdas Kuprys, Jonas Kugelevičius
The safety of tankers and single point mooring during loading operations / Vytautos Paulauskas
The problems of using alcohol biofuel mixtures in the Lithuanian transport system / Sergejus Lebedevas, Galina Lebedeva
Flexibility in highway noise management / Jerzy Paslawski
Car rollover collision with pit corner / Janis Viba, Gundars Liberts, Vladimirs Gonca
Review of the monograph 'Intelligent transport systems' by Aldona Jarašūnienė
Defended doctoral dissertation
Ia Abstracts in Lithuanian (Santraukos)
IIa Abstracts in Russian (Рефераты)
