Preface

Time-independent Liveness in Time Petri Nets / J.P. Bachmann, L. Popova-Zeugmann

A Notion of Biological Diagnosability Inspired by the Notion of Opacity in Systems Security / R. Barbuti, A. Maggiolo-Schettini, P. Milazzo, D.P. Gruska

Update of Probabilistic Beliefs: implementation and Parametric Verification / K. Budzyńska, M. Kacprzak, P. Rembelski

Agent Oriented Techniques for Programming Autonomous Robots / H.-D. Burkhard

Process Algebra Contexts and Security Properties / D.P. Gruska

Model Checking Optimisation Based Congestion Control Algorithms / A. Lomuscio, N.G. Walker, B. Strulo, P. Wu

Checking Consistency of an ABox w.r.t. Global Assumptions in PDL / La Nguyen, A. Szałas

SAT as a Programming Environment for Linear Algebra / M. Srebrny, L. Stępień

A Categorical View of Timed Behaviours / I. Virbitskaite, N. Gribovskaya, E. Best
I Preface

145 Correct-by-Construction Concurrency: Using Dependent Types to Verify Implementations of Effectful Resource Usage Protocols / E. Brady, K. Hammond

177 A Tutorial Implementation of a Dependently Typed Lambda Calculus / A. Löh, C. Mcbride, W. Swierstra

209 Automation for Dependently Typed Functional Programming / S. Wilson, J. Fleuriot, A. Smaill
I Preface
229 Evaluating and Improving Modern Variable and Revision Ordering Strategies in CSPs / T. Balafoutis, K. Stergiou
263 Cluster Tree Elimination for Distributed Constraint Optimization with Quality Guarantees / I. Brito, P. Meseguer
287 Efficient Plan Adaptation through Replanning Windows and Heuristic Goals / A.E. Gerevini, I. Serina
325 Abductive Logic Programming as an Effective Technology for the Static Verification of Declarative Business Processes / M. Montali, P. Torroni, F. Chesani, P. Mello, M. Alberti, E. Lamma
363 Combinatorial Optimization Solutions for the Maximum Quartet Consistency Problem / A. Morgado, J. Marques-Silva
391 An Empirical Study of QBF Encodings: from Treewidth Estimation to Useful Preprocessing / L. Pulina, A. Tacchella
429 SLGAD Resolution for Inference on Logic Programs with Annotated Disjunctions / F. Riguzzi
489 Author Index
