An influence of technological contraflexure of crane bridges on its durability / A. Blum, K. Haremski

Thermal compressor of cascade exchange by pressure / A. Krajniuk

Analytical investigation of cargo displacement during the movement of rolling stock on a curved section of a track / Kh. Turanov, V. Olentsevich

Problems of rotational mass in passenger vehicles / A. Ubysz

Nonstationary heat flow in the piston of the turbocharged engine / P. Gustof, A. Hornik

Traffic flow forecasting based on no complete highway database / G. Manceski, M. Malenkovska Todorova

The influence of the type road, the type of vehicle and the age structure on the road transport emission / A. Kutrzyk, J. Filipczyk

A study of the influence of ribs shape on the gear transmission housing vibroactivity / T. Figlus, A. Wilk, H. Madej

Remarks on methods of calculating the crane load caused by running onto the track roughness / T. Matyja

The new technology of liquidation of transport accidents involving oil products / Yu Zelen’ko

Identification of the suspended on the rope load physical model / J. Tomczyk

Ecological aspects of water coal fuel transportation and application / N. Chernetskaya, A. Shvornikova

Neural classifier of the communication damage size being a result of collision of vehicles in road traffic / P. Czech, K. Wilk, R. Łukasik

Development of the efficient technology for eliminating environmental aftermaths in transport / L. Yaryshkina, A. Boychenko
Urban freight consolidation concepts: is there something missing? / M. Marinov, T. Zunder, D. Islam

Estimation of parameters of forms of bending oscillations of a body by results of vibrating tests with application of the theory of optimum filtration and linear regression models / K. Lyapshin, I. Vuchetich

Injury risk to young car drivers in traffic on territory of republic of Serbia / D. Jovanović, S. Bašić, J. Mitrović

About problem kinetic description of combustion process in fuel ozonization in diesel engine on transport vehicles / A. Golubenko, V. Mogila, E. Nozhenko

Managing and organizational changes of intermodal network in transition regions: the case of South-East Europe / B. Beškovnik

Route planning in dynamic graphs with linear changing and preprocessing for speed-up / G. Szőcs

Identification of factors having an impact on the moment of commencing the evacuation of people from a vessel / D. Łozowicka, A. Łozowicki

The organization of materials handling in a distribution plant / R. Raczyk

Development of dynamical model of wheel machinery allocated on a flatcar / K. Turanov, O. Portnova

The influence of the metal flexible torsional coupling on the course of starting / K. Filipowicz

Emergency diagnostics of load-carrying structures into the works transport / A. Blum, K. Haremski

Influence of roadway width and volume to capacity ratio on PCU values / R.M. Brooks

Methods of forecasting of stable heat regime of metal polymeric bushes of bearing of sliding operating on Newton lubricant / I. Pavlova, L. Vernyaeva, N. Vassel

Finite element modelling of contact interaction between wheel and rail with three-layered thin coating / V. Kolesnikov, M. Chebakov, A. Nasedkin, D. Sukhov

"Transport Problems": journal and conference / A. Sładkowski
