TECHNICAL PAPERS

29. Pollution Reduction in Receivers: Storm-Water Tanks / Giuseppe De Martino, Francesco De Paola, Nicola Fontana, Gustavo Marini, Antonio Ranucci

39. Quality of Life, Sustainable Civil Infrastructure, and Sustainable Development: Strategically Expanding Choice / Jamie Montague Fischer, Adjo Amekudzi

49. New Metro System as a Catalyst for Successful Planning Interventions in Athens / Dimitrios V. Batsos, John Tzouvadakis

56. Urban Road Pricing: Modeling Public Acceptance / Aikaterini Rentziou, Christina Milioti, Konstantina Gkritza, Matthew G. Karlaftis

77. Disaster Management Planning for Health Organizations in a Developing Country / Hesam Seyedin, James Ryan, Mohammed Keshtgar

CASE STUDIES

82. Variant Concept of Transportation-Disadvantaged: Evidence from Aydin, Turkey, and Yamaga, Japan / Yavuz Duvarci, Tan Yigitcanlar, Yalcin Alver, Shoshi Mizokami
FORUM
91 Americans' Contributions to Climate Change: Opportunities for Meeting Carbon Targets / Kara M. Kockelman, Melissa R. Thompson, Charlotte A. Whitehead-Frei

TECHNICAL PAPERS
101 Analysis of the Viability of an Urban Renewal Project under a Risk-Based Option Pricing Framework / Eddie Chi-man Hui, Ivan Man-hon Ng, Kak-keung Lo
112 Property Developers' Major Cost Concerns Arising from Planning Regulations under a High Land-Price Policy / Franky W. H. Wong, Edwin H. W Chan, Ann T. W. Yu
121 Rapid Urbanization and Implications for River Ecological Services Restoration. Case Study in Shenzhen, China / Hongjian Zhou, Peijun Shi, Jing ai Wang, Deyong Yu, Lu Gao
133 Preliminary Planning Guidance for Implementing Truck-Only Toll Lanes / Hsing-Chung Chu
142 Measures for Sustainable Freight Transportation at Urban Scale: Expected Goals and Tested Results in Europe / Francesco Russo, Antonio Comi

CASE STUDIES
159 Socioeconomic Impact of the Roads. Case Study of the "Eix Transversal" in Catalonia, Spain / Saul Obregon-Biosca, Rosa Junyent-Comas
171 Cities as the Engine of Growth: Evidence from India / Arup Mitra, Barjor Mehta
184 Megaevents, Urban Management, and Macroeconomic Policy 2007 Pan American Games in Rio de Janeiro / Alberto de Oliveira
193 Comprehensive Transportation Data Collection. Case Study in the Greater Golden Horseshoe, Canada / Matthew J. Roorda, Amer Shalaby, Sheyda Saneinejad

TECHNICAL NOTES
204 Could Impact Fees Be Used for CO₂ Mitigation? / Edward J. Jepson Jr.
TECHNICAL PAPERS

207 Analysis of Development Cost Based on Planning Characteristics of Multifamily Housing Development Projects / Gwangho Kim, TaeHoon Hong, SeungWoo Han, Sangyoub Lee

230 Applying Multivariate Data Analysis as Objective Method for Calculating the Location Index for Use in Urban Tree Appraisal / Esperanza Ayuga-Tellez, Maria Lucrecia Contato-Carol, Concepcion Gonzalez, Maria Angeles Grande-Ortiz, Javier Velazquez

238 Application of UrbanSim to the Austin, Texas, Region: Integrated-Model Forecasts for the Year 2030 / Siva Karthik Kakaraparthi, Kara M. Kockelman

248 Traffic Generated by Mixed-Use Developments—Six-Region Study Using Consistent Built Environmental Measures / Reid Ewing, Michael Greenwald, Ming Zhang, Jerry Walters, Mark Feldman, Robert Cervero, Lawrence Frank, and John Thomas

262 Estimating Household Trip Rates for Cross-Classification Cells with No Data: Alternative Methods and Their Performance in Prediction of Travel / Daniel A. Badoe, Judith L. Mwakalonge

272 Does the Academic Rank Matter? Study on the Trip Preferences of Academicians from Different Ranks Employed at Istanbul Technical University / Huseyin Onur Tezcan and Mustafa Tanis

281 Road Space Reallocation According to Car Congestion Externality / Carlos Alberto Gonzalez-Guzman, Francesc Robuste

291 Transport and Environmental Variables and the Impact of Cultural Differences on Playground Use / Gila Albert, Hala Abo-Kalla, Mira Baron

298 Commuting from U.S. Brownfield and Greenfield Residential Development Neighborhoods / Amy Nagengast, Chris Hendrickson, Deborah Lange

305 Pedestrians’ Decision of Shopping Duration with the Influence of Walking Direction Choice / Wei Zhu

311 Green Areas, the Most Significant Indicator of the Sustainability of Cities: Research on Their Utility for Urban Planning / Francisco Gomez, Jose Jabaloyes, Luis Montero, Vicente De Vicente, Manuel Valcuende

CASE STUDIES

329 Research on China’s Urban Development Strategy Based on Arable Land Preservation / Shumin Liang

337 Spatial Impacts of Microneighborhood Physical Disorder on Property Resale Values in Columbus, Ohio / Wonseok Seo, Burkhard von Rabenau

346 Monitoring Urban Sprawl and the National Ecological Reserve in Sintra-Cascais, Portugal: Multiple OLS Linear Regression Model Evaluation / Pedro Cabral, Jose A. Santos, and Gabriela Augusto
FORUM
355  Planner’s Puzzle: New Approach for Calculating Site Development Coverage / Howard Hahn
365  Child Streets / Eran Ben-Joseph and Sam Bass Warner

TECHNICAL PAPERS
370  Inexact Fuzzy Full-Infinite Mixed-Integer Programming Method for an Integrated Air and Waste Management System / Jing Su, Beidou Xi, Bo Yao, Guohe Huang, H.W. Lu, Li He, and Danfeng Ji
381  Parametric Study of Pedestrian Speeds at Midblock Crossings / Rajat Rastogi, Satish Chandra, J. Vamsheedhar, and Vivek R. Das
390  Exploring Reciprocal Influence between Individual Shopping Travel and Urban Form: Agent-Based Modeling Approach / Jing Du and Qi Wang
402  Neighborhood Walkability in a City within a Developing Country / Sedigheh Lotfi and Mohammad Javad Koohehsan
409  Risk Factors of Public-Private Partnership Projects in China: Comparison between the Water, Power, and Transportation Sectors / Esther Cheung and Albert P.C. Chan
416  Community Question in Transitional China, a Case Study of State-Led Urbanization in Shanghai / Ying Xu and Edwin H.W. Chan
438  Review of Policies on Access to Transportation Planning Data and Models: Implications for Transportation Planning Agencies / Stephanie S. Ivey and Daniel A. Badoe

CASE STUDIES
448  Integrated Urban Land-Use Planning Based on Improving Ecosystem Service: Panyu Case, in a Typical Developed Area of China / Deyong Yu, Yuan Jiang, Muyi Kang, Yuhong Tian, and Jin Duan
459  Quantitative Analysis of Urban Expansion Using RS and GIS, A Case Study in Lanzhou / Xiaoqing Li, Lichen Liu, and Xiaofeng Dong
470  Relationship between Immigrant Settlement Patterns and Transit Use in the Greater Toronto Area / L. Lo, A. Shalaby, and B. Alshalalfah
477  Getting Drivers to Switch: Transit Price and Service Quality among Commuters / Jiangping Zhou and Lisa Schweitzer
484  New Spatial Strategy in China: Major Function Zoning of Beijing-Tianjin Metropolitan Area with Perspective from Ecological Economics / Jin-Liao He, Yue-Guang Zong, and Hans Gebhardt
