SPIS TREŚCI

nr 1

3  Participatory water resources planning and management in an Agriculturally Intensive Watershed in Quebec, Canada using Stakeholder Built System Dynamics Models / J. ADAMOWSKI, J. HALBE

13 Ground water fed system restoration on the area of Przemkowski-Przeclawskie Wetlands / A. BRANDYK

25 Application of the WetSpa distributed hydrological model for catchment with significant contribution of organic soil. Upper Biebrza case study / J. CHORMAŃSKI, B. OKKE

37 Recorded lag times of snowmelt events in a small catchment / A. HEJDUK, K. BANASIK

47 Effect of hydrogel on the turf grass species growing under salt stress / A HADAM., M. WROCHNA, Z. KARACZUN

57 Stream-flow droughts and probability of their occurrence in a small agricultural catchment / E. KAZNOWSKA, K. BANASIK

71 Nutrient output from rural areas on the example of two catchments Skuterud and Zagożdżonka / K. SAWA, L. HEJDUK, J. DEELSTRA, L. ØYGARDEN

87 Evaluation methods of agricultural potential in rural areas including environmental function / R. VÁCHALOVÁ, Š. MATĚJKOVÁ, J. VÁCHAL, P. PÁRTLOVA, M. DUMBROVSKÝ, L. JURÍK
Slope erosion control with the use of fly-ash and sewage sludge / E. Koda, P. Osiński
Settlement evaluation of spread foundations on heavily preconsolidated cohesive soils / Z. Lechowicz, S. Rabarijoely, P. Galas, D. Kiziewicz
Determination of plant characteristics used in discharge capacity assessment of Turkey Creek watershed on South Carolina coastal plain, USA / D. Miroślaw-Świątek, D.M. Amatya
Temporal variability of the selected flood parameters in the Biebrza River valley / S. Ignar, A. Maksymiuk-Dziuban, D. Miroślaw-Świątek, J. Chormański, T. Okruszko, P. Wysocki
BOD measuring and modelling methods-review / T. Siwiec, L. Kiedryńska, K. Abramowicz, A. Rewicka
Modelling equilibrium data for manganese(II) sorption onto manganese dioxide modified chalcedonite using the non-linear regression method / M.M. Michel, L. Kiedryńska
Technical and functional aspects of enforcement of natural fertilizer warehouses in respect of environmental protection / K. Wiśniewski, A. Pawłat-Zawrzykraj
