PRESIDENTIAL ADDRESS
3 Harnessing energy

BRIEFING
9 Computer analysis models: the growing risk of over-reliance
10 Amended Construction Act introduces new payment rules
11 The road ahead - taking ICE to the next level

MONITOR
12 Discussion
15 Books
16 ICE Proceedings
18 ICE review

TECHNICAL PAPERS
19 Delivering London 2012: the Lee Valley Water Centre / C. Naish, D. Dungworth and T. Doyle
27 A tale of two tunnels: delivering the New Tyne Crossing / P. Fenwick, C. Jessett, D. Dingwall and M. Shaw
35 Making low-cost micro-hydro schemes a sustainable reality / S. Selvakumaran
42 Research enables UK roads safely to cut down on salt / C. Plumb and R. Jordan
BRIEFING
51 Sustainability, futures and opportunities for the civil engineer
52 Fidic: representing the world's consulting engineering companies for nearly a century
53 Mediation: the future of construction dispute resolution
54 Communications and CPD shortcomings dominate ICE professional conduct cases

MONITOR
56 Discussion
60 Books
62 ICE Proceedings
65 ICE review

TECHNICAL PAPERS
66 Gyeong-in Waterway puts Seoul back on the maritime map / J.-H Shin, J.-Y. Chung and S.-J. Lee
74 Cannon Place, London: design and construction over a live railway station / J. Fraser, D. Seel, J. Chadwick, K. Valambhia and A. Offiler
82 Construction Sector Transparency Initiative: making construction more accountable / J. Hawkins and B. McKittrick
89 A protocol for carbon emissions accounting in infrastructure decisions / P. Jowitt, A. Johnson, S. Moir and R. Grenfell
BRIEFING
99 The role of the civil engineer in society: engineering ethics and major projects
100 ICE journals help the evolution of science in Brazil
101 Research finds that kitchen and garden waste could be ideal for making Suds
102 Work harder on yourself than you do on your job: a new challenge for civil engineers

MONITOR
104 Discussion
108 Books
110 ICE Proceedings
113 ICE review

TECHNICAL PAPERS
114 Dubai Metro: building the world’s longest driverless metro / M. Botelle, P. McSheffrey, P. Zouzoulas and A. Burchell
123 Working in harmony with nature: the key to sustainability / HRH Prince Charles
129 Stabilisation of Combe Down stone mines, Somerset, UK / D. Adamson and A. Francis
138 More for less through private finance highway maintenance / J. Sunderland and P. O’Day
BRIEFING
147 Optimising building information modelling and off-site construction for civil engineering
148 Safeguarding water supplies in England: time for a strategic approach
149 ICE extends its range of science journals to cover green materials and innovative surfaces
150 New working group launched to provide sharper focus to ICE learned society work

MONITOR
152 Discussion
156 Books
158 ICE Proceedings
161 ICE review

TECHNICAL PAPERS
162 Going under the Devil’s Punch Bowl: the story of the A3 Hindhead tunnel, UK / P. Arnold
171 Design and construction of the tower headland wave walls, Blackpool, UK / L. Cunningham and A. Burgess
179 Lessons learned from Suds implementation at Peterborough, UK / R. Henry
185 Digital image correlation for structural measurements / N. McCormick and J. Lord
Special Issue 5

In this issue

Foreword / P. Morrell
Introduction / T. Caccavone, S. Housley, M. Rudrum

TECHNICAL PAPERS

Multi-objective design optimisation: getting more for less / R. Evins, S. Conrad Joyce, P. Pointer, S. Sharma, R. Vaidyanathan and C. Williams
Using value networks to boost construction performance / D. Meggitt, C. Sarri and L. Evans
Publishing constructions contracts to improve efficiency and governance / C. Kenny
Less is more / J. Holland
Time for the UK construction industry to become Lean / A. Sadreddini
Introducing Lean into the UK Highways Agency’s supply chain / C. Chen, S. Housley, P. Sprague and P. Goodlad
Paying less for pavements / E. Barker, A. Hunter and R. Sinhal
Collaborative planning on the Borough viaduct project, London / T. Ryall, S. Fitzpatrick, R. Parsloe and J. Morris
Gainsborough flood defence scheme: improving project delivery by reusing existing assets / K. Ford, M. Dineley and A. Zilles
Special Issue 6

2 In this issue
3 Introduction / B. Neale

TECHNICAL PAPERS
5 Engineering resilient infrastructure / S. Hudson, D. Cormie, E. Tufton and S. Inglis
13 Infrastructure resilience for high-impact low-chance risks / D. Blockley, J. Agarwal and P. Godfrey
20 Enhancing resilience in Britain’s railway infrastructure / A. Doherty, J. Dora and C. Newsome
27 An innovative approach for improving infrastructure resilience / M. Montgomery, T. Broyd, S. Cornell, O. Pearce, D. Pocock and K. Young
33 Water management institutions for more resilient societies / M. Muller
40 Adaptation of flood risk infrastructure to climate resilience / B. Gersonius, R. Ashley, A. Pathirana and C. Zevenbergen
46 Climate change adaptation in a small Pacific Island nation / R. Frankland, L. Hardwick and S. Watkin
52 Innovations in resilient infrastructure design: immersed and floating tunnels / L. Christian Ingerslev
59 Building community resilience / R. Andrew

Oprac. BPK
