PAPERS

65  Sulfate resistance of mortars containing silica fume and pozzolan / F. Canpolat
73  Incorporation of chromium-tanned leather residue in mortars / J. J. de Oliveira Andrade and V. Mattje
87  Strength properties of self-compacting mortar mixed with GGBFS / S. K. Lim, T. C. Ling and M. W. Hussin
99  Flexural fatigue strength of hybrid fibrous concrete beams / S. P. Singh, A. P. Singh and V. Bajaj
111 Lightweight concrete incorporating volcanic materials / K. M. A. Hossain

121 Book reviews
123 Editorial / I. Sims and P. G. Fookes

PAPERS
127 Changes in engineering properties of natural stone / T. Yates, D. Richardson and B. Miglio
135 Design advice for rigid highway pavements constructed in natural stone / P. Li, C. Fairfield and D. Fordyce
145 Dimension stone design - partial safety factors: a reliability based approach / R. S. Camposinhos
161 Dimension stone design - kerf anchorage in limestone and marble / R. S. Camposinhos and R. P. A. Camposinhos
177 The use of natural stone for internal flooring / I. Blanchard
189 A new approach to stone deformation: stone deformability index / Z. Karaca and T. Onargan

197 Book reviews
199 Editorial / J. Porteous

PAPERS
211 Scaled-up commercial production of reactive magnesium cement pressed masonry units. Part I: Production / M. Liska, A. AL-Tabbaa, K. Carter and J. Fifield
225 Scaled-up commercial production of reactive magnesia cement pressed masonry units. Part II: Performance / M. Liska, A. AL-Tabbaa, K. Carter and J. Fifield
245 Effect of chemical admixtures on loaded reinforced concrete columns in fire / A. M. Rashad, O. A. Hodhod and A. M. Ragab

DISCUSSION
255 The engineering properties of Victorian structural wrought iron / S. S. J. Moy, H. W. J. Clarke, S. R. Bright and M. Bussell
259 Book review
261  Editorial / P. Walker

PAPERS
263  Moisture conditions in timber cladding: field trial data for Sitka spruce / I. Davies, C. Fairfield, A. Stupart and P. Wilson
279  Slip analysis of surface-processed limestones / A. Sariisik, G. Sariisik and H. Akdaş
297  Materials science appraisal for recycling materials in roads / O. I. Ogwuda, D. Fordyce and K. Oduyemi
309  Use of multi-foil insulation in buildings: a review / R. Ogden, X. Wang, N. Walliman and C. Kendrick

321  Book reviews
PAPERS

335 Humidity buffering using stabilised rammed earth materials / D. Allinson and M. Hall

345 Use of novel materials for reinforced soil walls on weak soils / P. K. Jayasree and M. Ansar

355 Unbound material characterisation with Nottingham asphalt tester / S. Kim, K. Gopalakrishnan and H. Ceylan

367 Flexural fatigue analysis of self-compacting concrete beams / S. Goel, S. P. Singh and P. Singh

377 Development and testing of a prototype straw bale house / K. Wall, P. Walker, C. Gross, C. White and T. Mander
