

TRANSPORT PROBLEMS

Vol. 7 - 2012

SPIS TREŚCI

nr 1

- 5 The satellite based augmentation system - EGNOS for non-precision approach global navigation satellite system / **A. Fellner, K. Banaszek, P. Trómiński**
- 21 The use of biofuel on the railway transport / **V. Mogila, I. Vasyliev, E. Nozhenko**
- 27 Types of solutions improving passenger transport interconnectivity / **M. Bąk, P. Borkowski, B. Pawłowska**
- 37 Comparison of the sound pressure measurement and the speed measurement of the gearbox vibrating surface / **T. Figlus, A. Wilk**
- 43 Definition of the optimal strategies of transportation market participators / **V. Naumov**
- 53 A study on the options of means for railway passenger transportation / **S. Dailydka, V. Lingaitis**
- 63 Achievement of the charge exchange work diminishing of an internal combustion engine in part load / **S. Postrzednik, Z. Żmudka**
- 77 Failure analysis - basic step of applying Reliability Centered Maintenance in general aviation / **M. Bugaj**
- 87 Strategic risks of the road freight forwarding companies working with international cargo / **P. Gagova, V. Pencheva**
- 95 Transport servicing of the distribution in city / **A. Asenov, V. Pencheva, E. Savev**
- 103 The future in the telematics applications as support for increased safety / **A. Kalašová, J. Kučuljaková**
- 111 Organizing a bus depot – selected aspects / **J. Pawlicki, L. Czapkowski, J. Romańczyk**
- 119 Brake deceleration of cars with light luggage trailers / **J. Filipczyk**
- 129 Investigation of possibility of local laser strengthening of railway wheels / **S. Gubenko, Yu. Proidak, A. Shramko**

- 5 Fiscal impact of electronic fee collection system on long-run efficiency / **T. Kramberger, U. Kramar, A. Čurin, M. Cedilnik, M. Lipičnik, V. Tajnšek**
- 15 Influence of alliances, mergers and takeovers on efficiency of air transport / **J. Hawlena**
- 27 Forming the intermodal system of freight transportation on the east of Ukraine / **A. Golubenko, L. Gubacheva, A. Andreev**
- 37 Some implementation of quality of public transport / **P. Stoyanov, P. Gagova**
- 43 State value of pipeline transport systems if there is injury from external influence / **L. Tararychkin, G. Nechaev, M. Slobodyanyuk**
- 53 Dealer-service center competitiveness increase using modern management methods / **L. Makarova, R. Khabibullin, A. Belyaev, E. Belyaev**
- 61 Analysis of expected ATM processes changes in Central Europe / **T. Mihetec, S. Steiner, Z. Jakšić**
- 73 Increasing market opportunities through standardization and responsible care program / **R. Muha**
- 83 Safety and risk in road traffic: selected problems / **Z. Łukasik, A. Szymanek**
- 95 Influence of construction factors on the vibrational activity of the gearing / **B. Łazarz, G. Peruń**
- 103 In-service analysis of tram wheel set life / **S. Młynarski, P. Piec**
- 111 Aggressive behaviour of drivers in Slovakia affecting road safety / **Z. Krchová**
- 117 Urban electric vehicles: a contemporary business case / **N. Sadek**
- 131 Analysis of electronic navigational charts in order to enhance the safety of navigation / **L. Karničnik, J. Švetak**
- 141 A standardised language code for rail freight operations / **M. Marinov, T. Zunder, R. Arnoldus, C. van der Moolen**

- 5 Contribution to sidewalk pedestrian level of service analysis / **J. Bunevska Talevska, M. Malenkovska Todorova**
- 15 Adhesion control in the system of "wheel-rail" / **N. Gorbunov, M. Kovtanets, O. Prosvirova, E. Garkushin**
- 25 Effective aggregating of tractors for transportation / **P. Dimitrov, D. Simeonov, K. Stoyanov, P. Kangalov**
- 29 Emission and energy consumption characteristics of interrupted over-saturated flow for urban roads with heterogeneous traffic / **H.K. Sharma, B.L. Swami**
- 41 Assessment of the possibility of increasing a load - carrying strength of truss bridges of overhead travelling cranes / **M. Musioł, A. Blum**
- 53 Friction interaction management in two-point "wheel-rail" tribocontact / **A. Kostyukevich, N. Gorbunov, V. Nozhenko, M. Kovtanets, L. Tsyganovskiy**
- 61 A mathematical model study of suspended monorail / **V. Gutarevych**
- 67 An analysis of costs of vehicle repairs in a transportation company. Part 1 / **P. Drożdziel, H. Komsta, L. Krzywonos**
- 77 Statistical analysis of data describing the relationship between driver, truck and characteristics of the road / **Z. Fazekas, Z. Biró, P. Gaspar**
- 87 En-route mechanical activation of viscous oil and oil products transported in railroad tank cars / **Y. Myrzakhmetov, A. Śladkowski**
- 95 Improvement of design technique of track machines bodies bearing structures / **B. Tovt**
- 109 The formation of professional reliability of locomotive drivers / **V. Zaika**
- 119 Investigation of wear mechanism of tread during operation of railway wheels / **S. Gubenko, Y. Proidak**
- 127 On transport network reliability / **M. Popa, E. Rosca, F.V. Rusca**

- 5 An analysis of costs of vehicle repairs in a transportation company. Part II / **P. Droździel, H. Komsta, L. Krzywonos**
- 13 Navigation conditions and the risk management in inland waterway transport on the middle Danube / **T. Bačkalić, M. Maslarić**
- 25 Driver safety in relation to the post-accident vehicle reparation / **D. Hadryś, M. Miros, T. Węgrzyn, A.M. Pereira da Silva**
- 33 Perspective method to guarantee the reliability for the rolling stock of the railway / **A. Golybenko, L. Gubacheva, A. Andreev, S. Mokrousov, V. Shcherbakov**
- 39 Research on selection of modes of driving heavy trains on main IXB and IXD corridors of JSC "Lietuvos Geležinkeliai" / **L.P. Lingaitis, S. Dailyska, G. Jevdomacha**
- 49 Study of traction rolling-stock using in Lithuanian sector of railway line "Rail Baltica" / **G. Bureika**
- 57 Digital camera as a data source of ITS solutions in traffic control and management / **J. Piecha**
- 71 Development and research of differential mode GNSS model for intelligent transport functioning providing / **A. Kulik, K. Dergachov, T. Lytvynenko**
- 79 Road factors to align the economic conditions / **Zh. Zhanbiroy, S. Kenzhegulova**
- 85 Research of dynamics of tire wear of trucks and prognostication of their service life / **A. Kravchenko, O. Sakno, A. Lukichov**
- 95 Upgrading of vibrating compactor of the railway track ballast of YPO-3000 machine / **S. Lee, M. Akhmetov, A. Ibraimov, M. Taran**
- 107 Analysis of reliability parameters of conveyor belt joints / **A. Temerzhanov, L. Stolpovskikh, A. Ślaskowski**
- 113 The acoustic climate at the rest and service areas -parking lots by the Silesian section of A4 motorway / **R. Wieszala, T. Węgrzyn, D. Hadryś, J. Piwnik**
- 123 Influence of temperature on characteristics properties of flexible coupling / **J. Homišin, P. Kaššay**
