IN MEMORIAM
3 A look at the life and activity of a prominent Polish acoustician of the 20th century Professor Ignacy Malecki (1912-2004) on the occasion of the centenary anniversary of his birth / P. Ranachowski, F. Rejmund, J. Etienne

RESEARCH PAPERS
13 Music-induced vibrations in a concert hall and a church / S. Merchel, M.E. Altinsoy
19 Educational implementation of a sound level meter in the Lab VIEW environment / R. Barański, G. Wszołek
27 Efficient phantom source widening / F. Zotter, M. Frank
39 Spectral mapping using kernel principal components regression for voice conversion / P. Song, L. Zhao, Y. Bao
47 Evaluation of decay times from noisy room responses with pure-tone excitation / M. Meissner
55 HRTF adjustments with audio quality assessments / S.-N. Yao, L.J. Chen
63 Acoustic features of filled pauses in Polish task-oriented dialogues / M. Karpiński
75 Modal parameters of two violins with different varnish layers and subjective evaluation of their sound quality / E.B. Skrodzka, B.B.J. Linde, A. Krupa
83 Power amplification and selectivity in the cochlear amplifier / P. Kiełczyński
93 Ultrasonic properties of magnetic nanoparticles with an additional biocompatible dextrane layer / L. Dąbek, T. Hornowski, A. Józefczak, A. Skumiel
99 Detection of objects buried in the sea bottom with the use of parametric echosounder / E. Kozaczka, G. Grelowska, S. Kozaczka, W. Szynszczak
105 Matched-field source localization with a mobile short horizontal linear array in offshore shallow water / D. Zhao, Z. Huang, S. Su, T. Li

TECHNICAL NOTES
115 Practical concerns associated with single-number ratings in measuring sound transmission loss properties of partition panels / N. Garg, A. Kumar, S. Maji
125 Ultrasonic method for monitoring environmental risks associated with precipitation / T. Gudra, D. Banasiak, K. Herman, K. Opieliński

CHRONICLE
137 Winter School organized by the Upper Silesian Division of the Polish Acoustical Society

CALENDAR OF EVENTS
153 Conferences
PREFACE
157 Noise in the working and living environment / W.M. Zawieska

RESEARCH PAPERS
159 Global index of the acoustic quality of classrooms / J. Radosz
169 Ultrasonic noise sources in a work environment / B. Smagowska
177 Method of determining the sound absorbing coefficient of materials within
the frequency range of 5 000-50 000 Hz in a test chamber of a volume of
about 2m³ / W. Mikulski
185 Active noise reduction algorithm based on NOTCH filter and genetic
algorithm / P. Górski, L. Morzyński
191 Method of testing of sound absorption properties of materials intended for
ultrasonic noise protection / D. Pleban
197 Hammerstein nonlinear active noise control with the Filtered-Error LMS
algorithm / K. Mazur, M. Pawelczyk
205 Urban noise annoyance between 2001 and 2013 - study in a Romanian city /
D.I. Popescu, I.F. Moholea, R.M. Morariu-Gligor
211 Experimental acoustic flow analysis inside a section of an acoustic
waveguide / S. Weyna, W. Mickiewicz, M. Pyła, M. Jabłoński
217 The study of behavior of vibrating systems controllable by devices with
rheological fluid / M.L. Szary, P. Weber
223 Noise-induced hearing loss in professional orchestral musicians /
M. Pawlaczyk-Łuszczynska, M. Zamojska, A. Dudarewicz, K. Zaborowski
235 Creating dynamic maps of noise threat using PL-Grid infrastructure /
M. Szczodrak, J. Kotus, B. Kostek, A. Czyżewski
243 Assessment of ultrasonic noise hazard in workplaces environment /
A. Śliwiński
253 A perception-based method for the noise control of construction machines /
E. Carletti
259 Noise exposure of school teachers - exposure levels and health effects /
M. Hadzi-Nikolova, D. Mirakovsky, M. Zdravkovska, B. Angelovska, N. Doneva
265 Low frequency noise and its assessment and evaluation / S. Ziaran

TECHNICAL NOTE
271 The "NOMAD" project - A survey of instructions supplied with machinery
with respect to noise / J. Châtillon, M. Szyszko

CHRONICLE
277 XVI International Conference Noise Control 2013
291 15th International Symposium on Sound Engineering and Tonmeistering
nr 3

297 Investigation of ultrasonic emulsifying processes of a linseed oil and water mixture / A. Skumiel, A. Józefczak, K. Heller, T. Hornowski, K. Wielgusz

303 Discrimination of acoustic emission signals for damage assessment in a reinforced concrete slab subjected to seismic simulations / F.A. Sagasta, J.L. Torné, A. Sánchez-Parejo, A. Gallego

311 Source width of frontal phantom sources: perception, measurement, and modeling / M. Frank

335 Analysis of spectral characteristics of sound waves scattered from a cracked cylindrical elastic shell filled with a viscous fluid / O. Piddubniak, N. Piddubniak

351 Underwater noise generated by a small ship in the shallow sea / G. Grelowska, E. Kozaczka, S. Kozaczka, W. Szyrnczak

357 Features of nonlinear sound propagation in vibrationally excited gases / A. Perelomova, M. Kusmirek

363 Estimation of the fundamental frequency of the speech signal compressed by MP3 algorithm / Z.N. Milivojević, D. Brodić

383 Preliminary study on the influence of headphones for listening music on hearing loss of young people / A. B. Dobrucki, M. J. Kin, B. Kruk

389 Road traffic noise attenuation by vegetation belts at some sites in the Tarai region of India / V. Tyagi, K. Kurnar, V.K. Jain

TECHNICAL NOTES

407 Using microphone arrays to detect moving vehicle velocity / R. Peral-Orts, E. Velasco-Sanchez, N. Campillo-Davó, H. Campello-Vicente

417 Acoustic absorption of mortar composites with waste material / M.A. Stumpf Gonzalez, F. Flach, J. Reschke Pires, M. Piva Kulakowski

LETTER TO THE EDITORS

433 Book Review: "Acoustics for Engineers - Troy Lectures" / J. Blauert, N. Xiang

CHRONICIE

435 60th Open Seminar on Acoustics
nr 4

453 In Memoriam, Professor Zbigniew Witold Engel

457 Speech emotion recognition under white noise / Chengwei Huang, Guoming Chen, Hua Yu, Yongqiang Bao, Li Zhao

465 Speech emotion recognition based on sparse representation / Jingjie Yan, Xiaolan Wang, Weiyi Gu, Lili Ma

471 Selection of sound insulating elements in hydraulic excavators based on identification of vibroacoustic energy propagation paths / Zbigniew Dąbrowski, Jacek Dziurdź, Radosław Pakowski

479 Awareness of noise hazards and the value of soundscapes in Polish national parks / Sebastian Bernat

489 Indicator of vibroacoustic energy propagation as a selection criterion of design solution / Grzegorz Klekot

495 Acoustic absorption of a new class of alumina foams with various high-porosity levels / Tomasz G. Zieliński, Marek Potoczek, Romana E. Śliwa, Łukasz J. Nowak

503 Numerical evaluation of sound attenuation provided by periodic structures / Mario Martins, Luis Godinho, Luis Picado-Santos

517 Effect of binaural stimulation on attention and EEG / Adela Crespo, Manuel Recuero, Gerardo Galvez, Adrian Begona

529 Controllability-oriented placement of actuators for active noise-vibration control of rectangular plates using a memetic algorithm / Stanisław Wrona, Marek Pawełczyk

537 Active Noise Control with a single nonlinear control filter for a vibrating plate with multiple actuators / Krzysztof Mazur, Marek Pawełczyk

TECHNICAL NOTES

547 Evaluation of Two Alternative Procedures for Measuring Airflow Resistance of Sound Absorbing Materials / Romina Del Rey, Jesus Alba, Jorge P. Arenas, Jaime Ramis

555 Latest Developments in International Standardization of Whole-Body and Hand-Arm Vibration / Martin Liedtke, Jorg Rissler, Uwe Kaulbars

559 An Objective and Subjective Study of Noise Exposure within the Frequency Range from 10 kHz to 40 kHz / Bożena Smagowska

565 Influence of Material Used for the Regenerator on the Properties of a Thermoacoustic Heat Pump / Bartłomiej Kruk

IN MEMORIAM

571 Professor Marian Urbańczyk

573 Professor Mikołaj Łabowski

CALENDAR OF EVENTS

575 Conferences
