3 Between Local Connectedness and Sun Connectedness / J.K. Kohli, D. Singh, B.K. Tyagi
17 On unbounded almost periodic functions in Hausdorff metric / S. Stoiński
23 The Voronovskaya type theorem for Poisson integrals of functions of two variables / G. Krech
35 Distance Fibonacci numbers, their interpretations and matrix generators / U. Bednarz, A. Włoch, M. Mołowiec-Musiał
47 Semilinear Functional Differential Equations of Fractional order with State-Dependent Delay / M. Benchohra, O. Bennihi, K. Ezzinbi
61 Generalized Perfect Numbers / D.P. Shukla, S. Yadav
73 Cauchy Multiplication of Euler Summable Series in Ultrametric Fields / R. Deepa, P.N. Natarajan, V. Srinivasan
81 An addendum to the paper "Some XCharacterizations of Schur Matrices in Ultrametric Fields" / P. N. Natarajan
83 Modes of (α)-convergence of sequences of functions / E. Athanassiadou, A. Boccuto, N. Papanastassiou
95 Sur les éléments bornants et les idéaux formés d’éléments bornants joints dans les algèbres bornologiques / A. Zinedine, A. Tajmouati
105 Leaders of Polish mathematics between the two world wars / **R. Duda**
113 On Nonlinear Differential Equations in Generalized Musielak-Orlicz Spaces / **W.M. Kozlowski**
135 Characterizations of some function spaces in terms of Haar wavelets / **Hans Triebel**
155 Algebraic Separation and Shadowing of Arbitrary Sets / **J. Grzybowski, D. Pallaschke, R. Urbański**
165 On pointwise convergence of nets of Mellin-Kantorovich convolution operators / **C. Bardaro, I. Mantellini**
179 Identity principles for Bernstein quasianalytic functions / **W. Pleśniak**
189 (C-K)-strongly n-convex functions in linear spaces / **Z. Kominek**
197 On X-convex functions / **S. Rolewicz**
201 On the strict convexity of Besicovitch-Musielak-Orlicz spaces of almost periodic functions equipped with the Orlicz norm / **A. Daoui, M. Morsli, M. Smaali**
213 Some properties of set-valued stochastic integrals of multiprocesses with finite Castaing representations / **M. Kisielewicz**
227 Some Algebra Ideals Of Regular Operators / **E. Bayram, W. Wnuk**
235 On the space of (s)-integrable functions for a monotonic measure / **C. Wu, X. Ren, Ch. Wu**
247 k-extreme point of generalized Orlicz sequence spaces with Luxemburg norm / **Z. Shi, X. Wang**
263 On the almost periodicity of a generalized trigonometric polynomial / **S. Stoiński**
271 Order of approximation for nonlinear sampling Kantorovich operators in Orlicz spaces / **D. Costarelli, G. Vinti**
293 Remark on borderline traces of Besov and Triebel-Lizorkin spaces on noncompact hypersurfaces / **L. Skrzypczak, B. Tomasz**
311 A note on strict K-monotonicity of some symmetric function spaces / **M. Ciesielski, P. Kolwicz, R. Pluciennik**
323 Convergence results for a class of pramarts and superpramarts in Banach spaces / **C. Castaing, A. Salvadori**
355 Mean values for vector valued functions and corresponding functional equations / **R. Ger, M. Sablik**
371 Topological properties of the complex vector lattice of bounded finitely additive measures / **M. Nowak**
383 Asymptotically isometric and isometric copies of $l_1$ in some Banach function lattices / **A. Kaminska, M. Mastyło**
401 On orthogonally additive functions with orthogonally additive second iterate / **K. Baron**
405 On the boundedness of sets in Musielak-Orlicz spaces / **I.V. Shragin**
413 Insertion and extension theorems for completely distributive lattice valued functions / **J. Gutiérrez García, T. Kubiak**
421 Characteristic of monotonicity of Orlicz function spaces equipped with the Orlicz norm / **P. Foralewski, H. Hudzik, R. Kaczmarek, M. Krbec**
