GEOTECHNICAL ENGINEERING
Vol. 166 - 2013

SPIS TREŚCI
Is. 1

1 Editorial / M. Brown

BRIEFING
Serviceability of piles with negative skin friction / E.A. Ellis

PAPERS
8 Delivering London 2012: Contaminated soil treatment at the Olympic Park / I. Mead, J. Apted and S. Sharif
18 Validation of soil parameters for deep tube tunnel assessment / P. J. Wright
31 Stability for a high embankment founded on sulfide clay / R. Müller, S. Larsson and B. Westerberg
49 Deformation parameters of bedrock at a nuclear reactor site / C Harikumar, C Sivathanu Pillai and S.C Chetal
56 Using a direct-drive motor to measure strain in triaxial tests / F.-C Teng and C.-Y. Ou
67 Interfacial shear strength of silty sand-geogrid composite / S.A. Naeini, M. Khalaj and E. Izadi
76 Specific surface area effect on compressibility behaviour of clayey soils / Y. Yukselen-Aksoy and A. Kaya

DISCUSSION
88 Optimum geometrical properties of active isolation / M. Jesmani, A. Hamissi, M. Kamalzare, R.S. ViLeh, A. Khoubani and M.M. Ahmadi
91 Elsewhere in ICE Proceedings
93 Award-winning papers in 2011
94 Geotechnical Engineering: Referees 2012
Preface / B. Clarke

Editorial / W. Craig and K. Gavin

PAPERS

Suction caissons for cross-flow tidal power system / M.L. Maynard, J.A. Schneider, J. McEntee and E. Newberg

Cyclic triaxial tests to aid offshore pile analysis and design / W.W. Sim, A. Aghakouchak and R.J. Jardine

The effect of ageing on the axial capacity of piles in sand / K.G. Gavin, D.J.P. Igoe and L. Kirwan

Displacement response to axial cycling of piles driven in sand / S.P. Rimoy, R.J. Jardine and J.R. Standing

Lateral response of monopile supporting an offshore wind turbine / R.T. Klinkvort and O. Hededal

Dynamics of offshore wind turbines supported on two foundations / S. Bhattacharya, J.A. Cox, D. Lombardi and D. Muir Wood

A framework for understanding energy pile behaviour / P.J. Bourne-Webb, B. Amatya and K. Soga

Pile heat exchangers: thermal behaviour and interactions / F. Loveridge and W. Powrie

Thermal response testing through the Chalk aquifer in London, UK / F. Loveridge, G. Holmes, W. Powrie and T. Roberts

Geothermal subsidence study at Wairakei-Tauhara, New Zealand / C. Bromley, K. Brockbank, T. Glynn-Morris, M. Rosenberg, M. Pender, M. O'Sullivan and S. Currie

Rock compressibility at the Wairakei-Tauhara geothermal field. New Zealand / M. Pender, G. Ramsay, T. Glynn-Morris, B. Lynne and C. Bromley
237 Editorial / S. Haigh

PAPERS
239 Deformation and strength of embankments on soft Dutch soil / E. den Haan and A. Feddema
253 Palm Jumeirah, Dubai: cone penetrometer testing data from the carbonate sand fill / A. Lees, D.A. King and S. Mimms
268 Termination criteria for jacked precast high-strength prestressed concrete pipe piles / J. Liu, Z. Zhang, F. Yu and Q. Yang
280 Evaluation of ground freezing data from the Naples subway / S. Papakonstantinou, G. Anagnostou and E. Pimentel
299 Stiffness of finite sand stratum under vertical vibrations / H.N. Ramesh and M.T. Prathap Kumar
310 Effects of test conditions on shear behaviour of composite soil / Y. Li, L.S. Chan, A.T. Yeung and X. Xiang
321 A mathematical function to represent S-shaped relationships for geotechnical applications / M. D. Liu, K.J. Xu and S. Horpibulsuk

DISCUSSION
328 Response of a plastic pipe buried in expansive clay / C.P.K. Gallage, D. Chan, J. Kodikara and P.C.F. Ng
331 Editorial / K. Stone

PAPERS
333 Unexploded ordnance risk assessment on Crossrail project in London - pre-empting best practice / P. Smith, U. Lawrence, S. Terry and S. Cooke
343 Design, prediction and monitoring of deep fill settlement / P. Waddell
357 Drainage controlled uniaxial swelling cell / A. Assadi Langroudi and S.S. Yasrobi
365 Potential damage assessment in buildings undergoing tilt / E. Namazi and H. Mohamad
375 An in situ low-pressure grouting application / U. Mutman and A. Kavak
389 Sliding stability analysis of gravity retaining walls using the pseudo-dynamic method / M.H. Baziar, H. Shahnazari and M. Rabeti Moghadam
399 Three-dimensional analyses of concrete piles in clayey soils / R.Z. Moayed, M. Kamalzare and A. Judi
408 Chemical interactions at the concrete/clay interface due to thaumasite form of sulfate attack / R. Brueckner, S.J. Williamson and L.A. Clark
415 Remoulded shear strength at plastic and semi-solid states / P. Vinod, A. Sridharan and K.A. Deepa
Is. 5

425 Editorial / A. Bell and M. Brown

BRIEFING
428 Soil parameters, sampling and testing for design to Eurocode 7 / J. Atkinson

PAPERS
441 Light-weight deflectometer for mechanistic quality control of base course materials / A. Ebrahimi and T. B. Edil
451 Wet winter pore pressures in railway embankments / K.M. Briggs, J.A. Smethurst, W. Powrie and A.S. O'Brien
466 Predicting ground movements in London Clay / N. Jurečič, L. Zdravković and V. Jovičić
483 Coupled stress-seepage analysis of Karun III concrete arch dam / A. Hosseinzadeh, M. Nobarinasab, A. Soroush and V. Lotfi
502 Calculation of the axial bearing capacity of tapered bored piles / K. Paik, J. Lee and D. Kim

DISCUSSION
515 Remoulded shear strength at plastic and semi-solid states / P. Vinod, A. Sridharan, K.A. Deepa, S. Haigh and P.J. Vardanega

CORRIGENDUM
518 Bored pile design in stiff clay II: mechanisms and uncertainty / P.J. Vardanega, M.G. Williamson and M.D. Bolton
Editorial / M. Brown

PAPERS

522 Landslide hazard and risk assessment on the Scottish road network / M.G. Winter, M. Harrison, F. Macgregor and L. Shackman

540 The base resistance of non-displacement piles in sand. Part I: field tests / K. Gavin, D. Cadogan, A. Tolooiyan and P. Casey

549 The base resistance of non-displacement piles in sand. Part II: finite-element analyses / A. Tolooiyan and K. Gavin

561 Energy piles: site investigation and analysis / P. Hemmingway and M. Long

576 Undrained shear strength-water content relationship for sewage sludge / B.C. O'Kelly

589 Ground heave induced by installing stone columns in clay soils / B. McCabe, D. Kamrat-Pietraszewska and D. Egan

594 Mitigation of creep deformations by preloading: laboratory study / P.J. Venda Oliveira, A.A.S. Correia and E.S.P. Mira

601 Improving final settlement predictions of the observational method / M. Sasarand, S.M. Haeri

DISCUSSION

610 How Eurocode 7 has affected geotechnical design: a review / T.L.L. Orr and P.J. Vardanega

Oprac. BPK
