SPIS TREŚCI

nr 1

3 Acoustic study of REpower MM92 wind turbines during exploitation / M. Kłaczyński, T. Wszołek
11 Model of interactive system for training in the proper use of hearing protection devices / P. Górski
17 Definition and measure of the sound quality of the machine / D. Pleban
25 Type A standard uncertainty of long-term noise indicators / W.M. Batko, B. Stępień
37 Digital signal processing approach in air coupled ultrasound time domain beamforming / K. Herman, T. Gudra, J. Furmankiewicz
51 A versatile model of nonlinear electrodynamic loudspeaker co-operating with the amplifier designed by way of advanced software / M. Erza, E. Gaviot, G. Lemarquand, P. Tournier, L. Camberlein, S. Durand, F. Polet
65 Detection of montage in lossy compressed digital audio recordings / R. Korycki
73 Assessment of impulse noise hazard and the use of hearing protection devices in workplaces where forging hammers are used / R. Młyński, E. Kozłowski, J. Adamczyk
81 An introduction to virtual phased arrays for beamforming applications / D. Fernández Comesaña, K.R. Holland, D. García Escribano, H.-E. de Bree
89 Annoyance related to wind turbine noise / M. Pawlaczyk-Łuszczyńska, A. Dudarewicz, K. Zaborowski, M. Zamojska-Daniszewska, M. Waszkowska
103 Experimental study of silent sonar / J. Marszał
117 Transistor effect in the cochlear amplifier / P. Kiełczyński, M. Szalewski
125 Changes in distortion product otoacoustic emission caused by contralateral broadband noise / E. Ozimek, A. Wicher
139 Noninvasive imaging of thermal fields induced in soft tissues in vitro by pulsed focused ultrasound using analysis of echoes displacement / P. Karwat, J. Litniewski, T. Kujawska, W. Secomski, K. Krawczyk
145 Effect of bass bar tension on modal parameters of a violin's top / E.B. Skrodzka, B.B.J. Linde, A. Krupa

IN MEMORIAM
151 Zygmunt Grzegorz Wąsowicz
153 Elżbieta Maria Walerian

CHRONICLE
155 42nd Winter School on Vibroacoustical Hazards Suppressions
Effects of acoustic treatment on music teachers' exposure to sound / E. Kozłowski, R. Młyński
Parametric sensitivity analysis of factors affecting sound transmission loss of multi-layered building elements using Taguchi method / N. Garg, A. Kumar, S. Maji
Vibrational properties of sundatang soundboard / R.Y. Batahong, J. Dayou, S. Wang, J. Lee
Diagnostics of synchronous motor based on analysis of acoustic signals with the use of line spectral frequencies and K-nearest neighbor classifier / A. Glowacz
Statistical analysis of the equivalent noise level / W. Batko, B. Przysucha
Verification of the calculation assumptions applied to solutions of the acoustic measurements uncertainty / W. Batko, R. Bal
Auditory display applied to research in music and acoustics / B. Kostek
Detection range of intercept sonar for CWFM signals / J. Marszal, R. Salamon
Variable ratio sample rate conversion based on fractional delay filter / M. Blok, P. Drózda
Active noise control using a fuzzy inference system without secondary path modelling / S. Kurczyk, M. Pawelczyk
A numerical approach to calculate the radiation efficiency of baffled planar structures using the far field / M.A. González-Montenegro, R. Jordan, A. Lenzi, J.P. Arenas
Influence of the inter teeth volumes on the noise generation in external gear pumps / W. Fiebig
The preparation of soluble cellouronic acid sodium salt by TEMPO mediated oxidation of ultrasound-pretreated parenchyma cellulose from bagasse pith / X. Gao, K. Chen, H. Zhang, L. Peng
Simultaneous calibration of multiple microphones for both phase and amplitude in an impedance tube / P. Tóth, Ch. Schram
Multi-modal acoustic flow decomposition examined in a hard walled cylindrical duct / S. Weyna, W. Mickiewicz
2009 In Memoriam, Professor Jerzy Sadowski

303 The 50th Anniversary of the Committee on Acoustics of the Polish Academy of Sciences / A. Rakowski, A. Śliwiński

REVIEW PAPERS
307 Virtual acoustics / M. Vorländer
319 Dolphin-inspired target detection for sonar and radar / T. Leighton, P. White
333 Electric vehicles and urban noise control policies / L. Maffei, M. Masullo

RESEARCH PAPERS
343 Sensitivity analysis of acoustic field parameters on a change of boundary conditions in a room / K. Suder-Dębska, I. Czajka, M. Czechowski
351 Experiments and FE analyses on airborne sound properties of composite structural insulated panels / A. Wawrzynowicz, M. Krzaczek, J. Tejchman
365 Simulated sound-fields in a multi-configurable auditorium / P. Bustamante, S. Girón, T. Zamarreño
385 Acoustical analysis of enclosure as initial approach to vehicle induced noise analysis comparatively using STFT and wavelets / A. Błażejewski, P. Kozioł, M. Łuczak
395 Design, manufacture and characterization of an acoustic barrier made of multi-phenomena cylindrical scatterers arranged in a fractal-based geometry / L. Wei, M. Li, Q. Fu, Y. Fan, D. Yang
403 Standing waves and acoustic heating (or cooling) in resonators filled with chemically reacting gas / A. Perelomova, W. Pelc-Garska
411 Two-microphone dereverberation for automatic speech recognition of Polish / M. Kundegorski, P.J.B. Jackson, B. Ziółko

BOOK REVIEW
421 Review of the book "Acoustics - Sound Fields and Transducers" by Leo L. Beranek and Tim J. Mellow / A. Dobrucki
REVIEW PAPERS
427 Ultrasonic Synthetic Apertures: Review / Andrzej Nowicki, Barbara Gambin
439 Underwater Acoustic Imaging of the Sea / Grażyna Grelowska, Eugeniusz Kozaczka
453 Acoustical Boundary Elements: Theory and Virtual Experiments / Rafael Piscoya, Martin Ochmann

RESEARCH PAPERS
467 Follow That Tune – Adaptive Approach to DTW-based Query-by-Humming System / Bartłomiej Stasiak
477 Magnitude Modelling of HRTF Using Principal Component Analysis Applied to Complex Values / Oscar Alberto Ramos, Fabián Carlos Tommasini
483 Chinese Syllable and Phoneme Identification in Noise and Reverberation / Jianxin Peng
489 An Assessment of High-Order-Mode Analysis and Shape Optimization of Expansion Chamber Mufflers / Min-Chie Chiu, Ying-Chun Chang
501 System for Automatic Transcription of Sessions of the Polish Senate / Krzysztof Marasek, Danijel Koržinek, Łukasz Brocki
511 The Effect of Plate Discretization on Accuracy of the Sound Radiation Efficiency Measurements / Karolina Kolber, Anna Snaksowska, Michał Kozupa
519 Spatial and Frequency Compounding in Application to Attenuation Estimation in Tissue / Ziemowit Klimonda, Jerzy Litniewski, Piotr Karwat, Andrzej Nowicki
529 A Multi-Level Robust and Perceptually Transparent Blind Audio Watermarking Scheme Using Wavelets / Farooq Husain, Omar Farooq, Ekrqam Khan
549 The Characteristic of Sound Reflections from Curved Reflective Panels / Agata Szeląg, Mirosława Lewińska, Tadeusz Marek Kamisiński, Jarosław Rubacha, Adam Pilch
559 Ultrasonic Mammography with Circular Transducer Array / Krzysztof J. Opieński, Piotr Pruchnicki, Tadeusz Gudra
569 Circular Radon Transform Inversion Technique in Synthetic Aperture Ultrasound Imaging: an Ultrasound Phantom Evaluation / Jurij Tasinkevych
583 The Acoustics of the Catacombs / Gino Iannace, Amelia Trematerra, Ahmad Qandil
591 Driver Filter Design for Software-implemented Loudspeaker Crossovers / Shu-Nung Yao
599 Comparison of Formulas Obtained for Analytical and LQ Idea Approaches to Determine the Optimal Actuator Location in Active Multimodal Beam Vibration Reduction / Elżbieta Żołopa, Adam Brański
605 Control of Bending-Bending Coupled Vibrations of a Rotating Thin-Walled Composite Beam / Jaroslaw Latalski, Marcin Bocheński, Jerzy Warmiński
Optimal Design of Piezoelectric Actuators for Shunt Damping Techniques / Marcus Neubauer

Modal Analysis of a Trapezoidal Violin Built after the Description of Félix Savart / Tim Duerinck, Ewa Skrodzka, Bogumił B.J. Linde

Classification of Music Genres Based on Music Separation into Harmonic and Drum Components / Aldona Rosner, Björn Schuller, Bożena Kostek

FEM Analysis of Active Reduction of Torsional Vibrations of Clamped-Free Beam by Piezoelectric Elements for Separated Modes / Elżbieta Augustyn, Marek S. Kozień, Michał Prącik

TECHNICAL NOTES

Optimization of Parameters for a Damped Oscillator Excited by a Sequence of Random Pulses / Agnieszka Ozga

Identification of the Types of Measured Acoustic Modes Inside the Operator’s Cab in a Bulldozer / Zygmunt Szczepan Dziechciowski, Marek S. Kozień

IN MEMORIAM

Professor Stefan ERNST / Mirosław Chorazewski

Oprac. BPK
