CIVIL ENGINEERING
Vol. 167 - 2014

SPIS TREŚCI

Is. 1

PRESIDENTIAL ADDRESS: GEOFF FRENCH
3 Civil engineers: integrity, communication, engagement

BRIEFING
9 How Britain’s construction industry will be transformed by 2025 - and the reasons why
10 Australia - still a land of opportunity for civil engineers despite recent ups and downs
11 Institution of Civil Engineers partners with BSI to help complete the switch to Eurocodes
12 New reports highlight the critical role of health and safety in professional engineering

MONITOR
13 Discussion
14 Books
15 ICE review
16 ICE Proceedings

TECHNICAL PAPERS
18 ‘Building with nature’: the new Dutch approach to coastal and river works / H. de Vriend, M. van Koningsveld and S. Aarninkof
25 Giant new Kattupalli yard and port puts India at forefront of Asian shipbuilding / T. S. Ananthakumar and K. Jayesh
33 Collaboration in an emergency: repairing London’s M4 Boston Manor viaduct / C. Wearne, C. Armstrong, T. Nicholls and J. Harrison
40 Novel alliance completes Springfield’s new rail link in Queensland Australia / P. Josey and T. Burton
BRIEFING
51 Growth of nanomaterials in construction raises health and safety concerns
52 Advances in flood modelling helping to reduce flood risk
53 Revised building regulations for England require fabric energy efficiency calculation
54 Open access: making publicly funded research work free for all
55 Routes to membership: understanding the ICE 3000 series

MONITOR
56 Discussion
60 Books
62 ICE Proceedings
65 ICE review

TECHNICAL PAPERS
66 Heathrow airport’s personal rapid transit system proves to be a viable transport solution / T. Kerr, M. Lowson and A. Smith
74 Network Rail’s international benchmarking programme, UK / E. Algaard and P. Treacher
81 Building information modeling in practice: transforming Gatwick airport, UK / S. Neath, R. Hulse and A. Codd
BRIEFING
98 Building information modelling - business enabler or technology red herring?
99 Use of European standards for temporary works design: a warning
100 Britain's infrastructure contractors report more work but a shortage of skills
101 Wikipedia: helping to promote the art and science of civil engineering

MONITOR
103 Discussion
106 Books
108 ICE Proceedings
110 Award-winning papers for free download
113 ICE review

TECHNICAL PAPERS
115 Designing and delivering 'The Cube' mixed-use building in Birmingham, UK / S. Brumpton, D. Trujillo and S. Walker
123 Corrib onshore gas pipeline, Ireland – using BIM on a large infrastructure project / D. Ward, C. Butler, S. Khan and B. Coyle
131 Staircase showcase for ultra-high-strength fibre-reinforced concrete / K. Marcinkiewicz and M. Wells
138 People-plant interface training: targeting an industry fatal risk / P. Hobson, D. Emery, L. Brown, R. Bashford and J. Gill
BRIEFING
147 Heading the drive for women in civil engineering: a personal perspective
148 Fibre-reinforced-polymer composites make the leap from aerospace to infrastructure
149 New PAS 128 standard helps put Britain's underground utilities on the map
150 Merit game celebrates 25 years of developing civil engineers' business skills

MONITOR
152 Discussion
154 Books
156 ICE Proceedings
158 ICE review

TECHNICAL PAPERS
159 Gotthard base tunnel, Switzerland – the world's longest railway tunnel / Renzo Simoni
167 Containment for petroleum products – lessons learnt from Buncefield, UK / Fathi Tarada, Peter Robery
177 On track: the future for rail infrastructure systems / William Powrie
186 Assessment of infrastructure devastated by extreme floods: a case study from Colorado, USA / Yail J. Kim, Wesley Marshall, Indrani Pal
1 Introduction / J. Tate

TECHNICAL PAPERS
3 Seeing is knowing: data exploration as a support to planning / S. Pensa, E. Masala, I. Lami and A. Rosa
9 Fine-grained traffic state estimation and visualization / S. Box, X. Chen, S. Blainey and S. Munro
17 Microsimulation—a robust technical planning method with strong visual output / D. Kara, S. Koesling, T. Kretz, Y. Laugel, F. Reutenauer and F. Schubert
25 Visualising the New Oxford Circus junction in London, UK / G. Coupe, C. Greenwood, P. Fraser and M. Hinks
33 Four-dimensional modeling on Tottenham Court Road station, London, UK / Y. Li, J. Stephens and A. Ryba
41 Keep it simple: user-focused flood risk visualisation / J. Clarke, J. Wicks, L. Lovell, D. Han and J. Davis
48 Communicating flood risk through three-dimensional visualisation / S. Y. Evans, M. Todd, I. Baines, T. Hunt and G. Morrison
56 Visualising the environmental conditions of buildings / P. Patlakas, H. B. Santacruz and H. Altan
Special Issue 6

2  Introduction / C. Rawlings and T. Caccavone

TECHNICAL PAPERS

3  London 2012 legacy: creating a more sustainable future for London and beyond / Jennifer Daothong; David Stubbs

13  London 2012 legacy: principles, purpose, professionals and collaboration / Niall McNevin

19  London 2012 legacy: E20 – creating an integrated piece of city / Kathryn Firth

26  London 2012 legacy: transformation of the Olympic Park / Colin Naish; Selina Mason

33  London 2012 legacy: design and reuse of temporary equestrian platforms / Paul Pennington

40  London 2012 legacy: Olympic Park waterways / Andrew Nicholls

46  London 2012 legacy: managing flood risk at Queen Elizabeth Olympic Park / David Palmer; Duncan Ker-Reid; Nilani Venn; Anna Bruni

Oprac. BPK
