EDITORIAL
1 Changes to Our Editorial Board / Norbert J. Delatte

FORUM
2 Effect of the 2009 American Recovery and Reinvestment Act (ARRA) on Civil Engineering / Cynthia Orndoff, Galen Papkov
10 Can an Integrated Problem-Based Learning Framework Improve Natural Hazard Management? / Islam H. El-adaway

TECHNICAL PAPERS
14 Building Student Teamwork with the Student Geo-Challenge / Amy Cerato, David Elton, David Shannon
21 Incorporation of Computer Simulations into Teaching Linear Scheduling Techniques / Eric Forcael, Charles R. Glagola, Vicente Gonzalez
31 Integration of Occupational Risk Prevention Courses in Engineering Degrees: Delphi Study / Jose M. Cortes, Eugenio Pellicer, Joaquin Catald
37 Ethical Issues in Multiple-Authored and Mentor-Supervised Publications / Marianne M. Jennings, Islam H. El-adaway
48 Designing a Benchmark Indicator for Managerial Competences in Construction at the Graduate Level / Victor Yepes, Eugenio Pellicer, Alejandro J. Ortega
55 Creative Laboratory Model for Large Undergraduate Engineering Classes / J. R. Mackechnie, A. H. Buchanan
62 Revitalizing Achievement by Using Instrumentation in Science Education (RAISE), a GK-12 Fellows Project / Magued Iskander, Vikram Kapila

CASE STUDIES
86 Smart Structures in Engineering Education / Stefan Hurlebaus, Tim Stocks, Osman E. Ozbolut

TECHNICAL NOTES
95 Summary of Developments in the Civil Engineering Capstone Course at Purdue University / Brock E. Barry, Vincent P. Drnevich, Ayhan Irfanoglu, Darcy Bullock
FORUM
104 Cross-Fertilization of Engineering Education Research and Development / Phillip C. Wankat

TECHNICAL PAPERS
107 Citation Rates of Award-Winning ASCE Papers / Rajan Sen, Purvik Patel
114 Using the Evidence: Comparison of Civil and Building Lecturers' and Students' Approaches to the Literature Review / Elizabeth Gadd, Andrew Baldwin, Michael Norris, Sharon Reid
123 Key Competencies for U.S. Construction Graduates: Industry Perspective / Yong Han Ahn, Annie R. Pearce, Hyuksoo Kwon
131 3D Visualization of Structures Using Finite-Element Analysis in Teaching / Ben Young, Ehab Ellobody, Thomas W. C. Hu
139 Case-Based and Collaborative-Learning Techniques to Teach Delivery of Sustainable Buildings / Sinem Korkmaz

CASE STUDIES
EDITOR’S NOTE
153 Call for Papers / Norbert Delatte

FORUM
154 Project Management for Executing Distance Education Programs / Adedeji B. Badiru, Rochelle R. Jones
163 Teaching Life-Cycle Thinking in Construction Materials and Methods: Evaluation of and Deployment Strategies for Life-Cycle Assessment in Construction Engineering and Management Education / K. Y. Lin, A. Levan, C. S. Dossick

TECHNICAL PAPERS
171 Assessing Building Information Modeling Estimating Techniques Using Data from the Classroom / Khaled Nassar
181 Alfred Pancoast Boiler / Francis E. Griggs Jr.
193 Impact of the Application of International Quality Processes on Engineering Education at Universities in Sri Lanka / Kathirgamalingam Somasundaraswaran
198 How Students Spend Their Time / Andrea L. Welker, Bridget Wadzuk
214 Use of BIM for Effective Visualization Teaching Approach in Construction Education / Jin-Lee Kim
224 Attributes of Hong Kong Construction Engineering Student Learning Approaches: Investigation of Chinese and Western Personal Values / Mei-yung Leung, Dongyu Chen, Isabelle Yee Shan Chan

CASE STUDIES
234 BEVI-Enabled Virtual and Collaborative Construction Engineering and Management / Burcin Becerik-Gerber, Kihong Ku, Farrokh Jazizadeh
246 Teaching Structural Analysis through Design, Building, and Testing / M. Solis, A. Romero, P. Galvin
ANNOUNCEMENTS
255 Call for Papers: Special Issue on Adoption of the ASCE Body of Knowledge 2nd Edition

Awards
256 2011 Best Paper Award / Norbert J. Delatte

FORUM
262 Virtual Classroom: Experience of Three Spanish Universities / Jose Manuel Mesa Fernandez, Joaquin Villanueva Balsera, Gemma Martinez Huerta, Vicente Rodriguez Montequin

TECHNICAL PAPERS
267 Introducing Dynamics and Control to Civil Engineers through an Experimental Flume / Juan A. Mantecon, Manuel Gomez, Jose Rodellar
274 Educational Module to Demonstrate the Seismic Behavior of Piles in Improved and Unimproved Soft Soils / Amy B. Cerato, Amirata Taghavi, Kanthasamy K. Muraleetharan, Gerald A. Miller
283 Policy 465: Latest Struggle in the "Revolt of the Engineers" / Harold W. Walker
289 Impact of Team Characteristics in Learning Sustainable Built Environment Practices / Sinem Korkmaz, Aditya Singh

Case Studies
296 Implementation of BBS and the Impact of Site-Level Commitment / Rafiq M. Choudhry
305 PBL and B-Learning for Civil Engineering Students in a Transportation Course / Antonio Nelson Rodrigues Da Silva, Nidia Pavan Kuri, Adriana Casale

DISCUSSIONS AND CLOSURES
314 Discussion of "Summary of Developments in the Civil Engineering Capstone Course at Purdue University" by Brock E. Barry, Vincent P. Drnevich, Ayhan Irfanoglu, and Darcy Bullock / Kerry A. Mazurek, Gordon J. Putz

REVIEWERS
315 Reviewers
